

What's so important about clean air?

According to the Environmental Protection Agency, the average person spends about 90% of their time indoors, including 9 hours a day in shared spaces. Do you know what you're breathing? Indoor air can be 2 - 5 times more polluted than outdoor air. In the work environment, these air quality issues are very common. Office buildings often have inadequate ventilation and occupants can have a difficult time controlling the air quality in these spaces. With the average person taking in around 3000 gallons of air a day, clean air has never been so important.

Air plays a big factor in how one feels on a day to day basis. Breathing stale or dirty air can negatively impact many people, especially those with allergies or asthma. Maintaining a clean indoor environment can have many positive benefits including stress relief, increased productivity, and a reduction in sick time off. Clean air has never been so important!

WORKSPACE EXPERIENCE

WIX1022-0217-00
XQ 4-STAGE AIR PURIFIER
WITH WINIX SMART

- Robust and technically advanced Dual 4 Stage air purifier AHAM certified for large rooms up to 628 sq. ft.
- Dual filtration allows faster, more powerful filtration of contaminated air; includes two permanent fine mesh pre-filters, two replaceable Coated DeOdorization (CD) Carbon Filters & two replaceable True HEPA Filters.
- Winix patented PlasmaWave® Technology instantly neutralizes particles at the molecular level.
- Auto mode auto-adjusts the fan speed for Set-and-Forget convenience.
- LED Numeric Particle Sensor displays air quality measurements of fine particles down to 2.5 microns.
- Dual Particle and Odor Sensors detect particles, Volatile Organic Compounds (VOCs), and odors. LED Air Quality Indicator displays the current air quality level in the room.
- Winix Smart App WIFI connects for control from anywhere including air quality information and carefree alerts.
- Filter replacement LED indicator alerts you when it is time to change the filter.
- The XQ uses Genuine Winix Filter X for up to 12 months service. **FILTER: WIX1712-0089-01**

Product Dimensions: 14.4"D x 14.5"W x 30.7"H

Certifications: AHAM verified, California Air Resource Board, Energy Star, cUL, TAA compliant

Warranty: 2-year limited warranty

WIX112100
NK100 4-STAGE TOWER
AIR PURIFIER

- Winix NK100 4-stage air purifier is AHAM Certified for outstanding performance and advanced airflow in rooms up to 320 sq. ft.
- 360° All-in-One Filter featuring a Fine Mesh Pre-Filter, Coated DeOdorization (CD) Carbon Filter, True HEPA Filter, and Winix patented PlasmaWave® technology that instantly neutralizes particles at the molecular level.
- LED Air Quality Indicator includes Smart Sensor technology that constantly monitors air quality and auto-adjusts the fan speed for Set-and-Forget convenience.
- Cleans 99.97% of airborne contaminants and allergens as small as 0.3 microns in size including dust, hair, dander, pollen, mold, bacteria, VOC's and odors.
- Filter replacement LED indicator alerts you when it is time to change the filter.
- The NK100 uses Genuine Winix Filter N for up to 12 months service. **FILTER: WIX112180**

Product Dimensions: 12.2"D x 12.2"W x 29.5"H

Certifications: AHAM verified, California Air Resource Board, TAA compliant

Warranty: 2-year limited warranty
